

It pays to grow your business with new machinery.

Retrofit Program: New Machinery

Don't let the word 'retrofit' mislead you. If you are expanding your business, such as by adding another production line, you can get paid to pick the more efficient model of a similar machine. It's kind of like buying the hybrid model of a car instead of the standard gasoline model. They both get you from A to B, but the upfront investment in the hybrid has lower fuel costs in the long run. And we can help pay for that upgrade.

Financial incentives available at retrofitmybusiness.com

Smarter technology for ongoing savings.

More competitive.

Modernizing your machinery means lower costs and a more competitive business.

Improved quality.

Get real-time feedback on your processes with modern technology, so you can keep improving.

Greater reliability.

Machinery running at peak efficiency means less time and money spent fixing it.

Cash flow improvement.

Spending less on electricity leaves you more money to grow your business.

Robert Kuenzlen

EVP, Mike and Mike's Organics Inc.

“With the incentive we received, our up-front investment will have paid for itself in 3 years.”

Retrofit Incentive Received: **\$12,925**

Annual Electricity Savings: **\$16,156**
